Theme 1:

OVERVIEW: FRAMING AND RESOURCING OF RURAL MEDICAL EDUCATION AND PRACTICE

1.1 Theory, values and social accountability

- 1.1.1 'What brings us together': The values and principles of rural medical education - *Steve Reid, Paul Worley, Roger Strasser, Ian Couper, James Rourke*
- 1.1.2 Integrating public health and medicine - *Denise Donovan*
- 1.1.3 From the village to the globe: The social accountability of rural health practitioners - *Robert F Woollard*
- 1.1.4 The challenges of health systems in developing countries - *Victor Inem*
- 1.1.5 Attaining rural health equity in Africa - *Ian Couper & Jannie Hugo*
- 1.1.6 Attaining rural health equity in Asia - *Fortunato Cristobal & Ian Couper*

1.2 Resourcing rural health: Funding and human resources

- 1.2.1 Health systems and funding of rural-based medical education - *Michael Jong*
- 1.2.2 Balancing medical education and the needs of the rural health service - *Ian Couper*
- 1.2.3 Addressing rural health workforce shortages: The pipeline concept - *Tom E Norris*
- 1.2.4 Recruiting students to rural medical careers - *Blair Schoales*
- 1.2.5 Establishing a rural curriculum from an urban academic medical centre - *Tom E Norris*
- 1.2.6 Health outcomes and the balance of primary care physicians vs specialists - *Tom E Norris*

1.3 Gender and cultural considerations in rural practice

- 1.3.1 Intercultural competence in rural medical practice - *Leonardo Vieira Targa*
- 1.3.2 Developing gender and cultural awareness for rural practice - *Susan P Phillips*
- 1.3.3 Women and rural medical practice: The importance of doing it differently in the 21st century - *Jo Wainer*
- 1.3.4 Indigenous cultures and health in Canada: A primer for rural physicians and health care professionals - *Darlene Kitty*
- 1.3.5 The interface between orthodox and traditional health practice - *Chris Ellis*

Theme 2:

MEDICAL EDUCATION IN RURAL SETTINGS

2.1 Rural medical schools and colleges

- 2.1.1 Foundations of a rural medical school: People, places and patients - *Tarun K Sen Gupta*
- 2.1.2 Operating a multi-site rural-based medical school - *Roger Strasser*
- 2.1.3 Developing a new rural medical school in North America - *Roger Strasser*
- 2.1.4 Developing rural medical schools: The history of Tromsø and Northern Norway - *Ivar J Aaraas & Peder A Halvorsen*
- 2.1.5 Rural medical education in Sabah, Malaysia - *Osman Ali & Muhammad Tauffik Mohd Noor*
- 2.1.6 Setting up Delta State University Medical School, Nigeria - *Victor Inem*
- 2.1.7 Developing a rural medical school in Australia - *Richard Hays*
- 2.1.8 The ACRRM: Advancing the discipline of rural and remote medicine in Australia - *Thomas Doolan & David Prideaux*

2.2 Teaching, learning and assessment in rural medical education

- 2.2.1 Rural areas: Valuable learning contexts for medical students - *Wendy Graham*
- 2.2.2 Making medical education practical in rural settings - *Dawn DeWitt*
- 2.2.3 Academic service learning and rural education - *Jannie Hugo*
- 2.2.4 Building capacity for integrated clinical learning in rural settings - *Sue Berry, Marion Briggs & David C Marsh*
- 2.2.5 Assessment in rural medical education - *Tim Wilkinson*
- 2.2.6 Assessment in rural medicine: How to measure and motivate achievement of abilities - *Richard Murray & Tarun K Sen Gupta*

2.3 Personal support and social considerations in rural health practice

- 2.3.1 Boundaries and balance: Managing relationships in rural practice - *Leslie Rourke & James Rourke*
- 2.3.2 The art of mentoring learners in rural health settings - *Barbara J Doty & David Schmitz*
- 2.3.3 Addressing personal difficulties during rural placements - *Suzanne Allen*
- 2.3.4 Enhancing the integration of medical students into rural communities - *Lisa McFayden & W Ian Cameron*
- 2.3.5 Supporting the spouse of the rural doctor and integrating the learner's family into rural settings - *Ann Chater*

2.4 Clinical research in rural settings

- 2.4.1 Clinical research in rural practice - *Len Kelly*
- 2.4.2 Clinical randomised controlled trials in rural primary care settings - *Athina Tatsioni & Christos Lionis*

Theme 3: PROFESSIONAL AND TECHNICAL SUPPORT FOR RURAL MEDICAL EDUCATORS

3.1 Professional support and development for rural medical educators

- 3.1.1 Rural clinical educator support - *Paul Worley*
- 3.1.2 Teaching rural clinical educators - *Jane Greacen*
- 3.1.3 Growing academics: faculty development in rural and remote contexts - *Sarah Strasser*
- 3.1.4 Professional development and support for clinical educators - *Con O'Maonaigh*

3.2 Technical support for rural medical educators

- 3.2.1 Rural medical training via distance education and remote supervision - *Patrick Giddings & Jeanette McLaren*
- 3.2.2 Teleconferencing in rural and remote medical education - *Kristian Krogh, Katherine Gray & Debra Nestel*
- 3.2.3 E-learning: A basic approach for rural clinical educators - *Peter G Baker*
- 3.2.4 Web-based networking: A case study - *Peter Hutten-Czapski*
- 3.2.5 Enhancing rural medical education through web-based access to libraries - *Patty Fink*

Theme 4: UNDERGRADUATE MEDICAL EDUCATION

4.1. Overview of undergraduate rural medical education

- 4.1.1 Excellence in 'bush medical schools': The value of rural education - *J Campbell Murdoch*
- 4.1.2 Optimising rural medical learning - *Alan Bruce Chater & Janine Wyatt*
- 4.1.3 Undergraduate medical teaching in rural and remote settings - *Sarah Strasser*
- 4.1.4 Developing rural undergraduate medical education in Wales - *Martin Green*
- 4.1.5 Multinational medical student clubs - *Ian Cameron*

4.2 Undergraduate student recruitment and selection

- 4.2.1 Medical school admissions policies targeting rural students - *Pamela Stagg*
- 4.2.2 Recruiting medical students from rural areas - *Sue Page*
- 4.2.3 Promoting rural practice through student selection - *Tarun K Sen Gupta & Louise Young*

4.3 Undergraduate curriculum and models of delivery

- 4.3.1 Models for undergraduate rural health placements - *Jane Doherty*
- 4.3.2 Short-term rural placements for medical students - *Ian Couper*
- 4.3.3 The community-oriented clinical clerkship: Short-term student placements in rural primary health care - *Theodoros Vasilopoulos*
- 4.3.4 Parallel consulting in rural medical education - *Lucie Walters*

Theme 5: POSTGRADUATE MEDICAL EDUCATION

5.1 Postgraduate training and professional development

- 5.1.1 Training in family medicine for rural practice in Canada - *Maureen Topps*
- 5.1.2 Training in family medicine for rural practice in the USA - *David Schmitz & Barbara J Doty*
- 5.1.3 Health service management training for rural doctors - *Ian Couper*
- 5.1.4 Implementing a professional development framework for rural and remote doctors - *Di Wyatt*
- 5.1.5 Postgraduate pathways to rural medical practice - *Tarun K Sen Gupta & Andrew McKenzie*
- 5.1.6 Professional development programmes for rural doctors - *James Douglas*
- 5.1.7 Credentialing and re-certification of rural doctors - *Jane Greacen*

5.2 Advanced clinical skills training

- 5.2.1 Supporting rural procedural practice - *Alan Bruce Chater*
- 5.2.2 Maintenance of emergency skills in rural practice - *David Campbell*
- 5.2.3 Advanced clinical skills: The use of simulation for the development and maintenance of skills for rural practitioners - *Debra Nestel, Leanne Rogers, Kirsty Freeman, Kathy Brotchie & Marcus O Watson*
- 5.2.4 Advanced skills training for rural doctors - *James Douglas*
- 5.2.5 The making of a rural general surgeon - *G William N Fitzgerald*
